

## Crystal Christmas

Pauline and Gaudry Normand

Gaudry & Pauline Normand evoke the true spirit of Christmas on crystal vessels.

At Mine Cristal, the crystal sanctuary, we have been playing the crystal vessels since 1994. On Crystal Christmas you will hear, for the first time ever, Christmas carols played on the crystal vessels. For this album we have created harmonious, tempered-scale ensembles of rare, standard-pitch crystal vessels. We wrote new arrangements of Christmas carols for these ensembles, and composed original pieces as well.

The crystal vessels are made of 100% pure quartz-rock crystals; they are much more than just a musical instrument. Used in a specific manner, the crystal vessels generate spiraling tones that surround, massage and elevate listener and performer alike. They promote well-being on all levels and ultimately can be used as a highly effective prelude to deep meditation.

So sit back, close your eyes, breathe deeply and let yourself relax completely. If you listen closely, the tones of the crystal vessels will carry you on omnidirectional waves of pure sound all the way to the essence within, the 'soundless sound'. Here you will find the true spirit of Christmas vibrating in waves of pure peace and joy!
